## Autodesk Topobase Client

**Autodesk®**

# Disclaimers

- This course was created for Autodesk Topobase 2009. The contents of this course are not intended for other versions of Autodesk Topobase.
- We may make statements regarding planned or future development efforts for our existing or new products and services. These statements are not intended to be a promise or guarantee of future delivery of products, services or features but merely reflect our current plans, which may change. Purchasing decisions should not be made based upon reliance on these statements.
- The Company assumes no obligation to update these forward-looking statements to reflect events that occur or circumstances that exist or change after the date on which they were made.

# Chapter Overview

- In this chapter, the student will learn how to use Topobase Web.

**Topobase Web**

**Autodesk®**

# Chapter Objectives

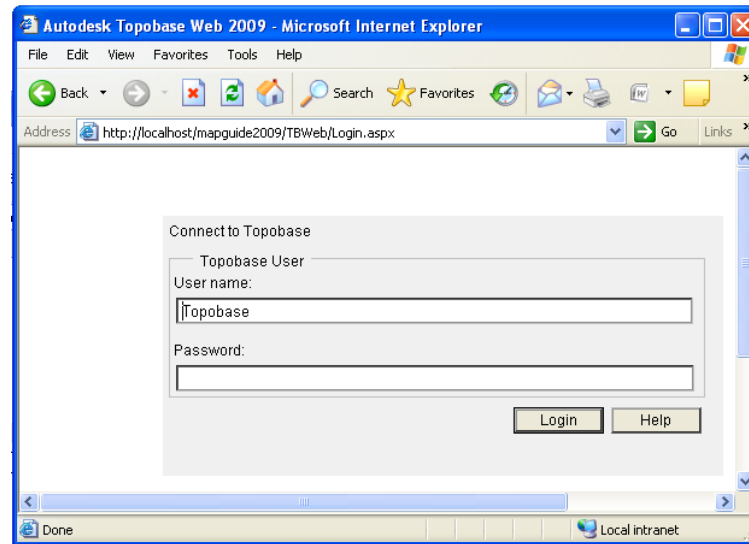

- By the end of this chapter, you will be able to:
  - Describe the difference between flexible and basic layout
  - Explain the user interface of the flexible Layout
  - Zoom and select features
  - Navigate with the Position Finder
  - Digitize features with the Topobase Explorer
  - Use Dimensioning for temporary measuring
  - Mark areas with the Redlining Tool

# 5.1 Basics

- Topobase Web 2009 is a MapGuide 2009 based application for geographical and alphanumerical data information and editing.
- The main concepts of the Topobase desktop version are also implemented in Topobase Web.

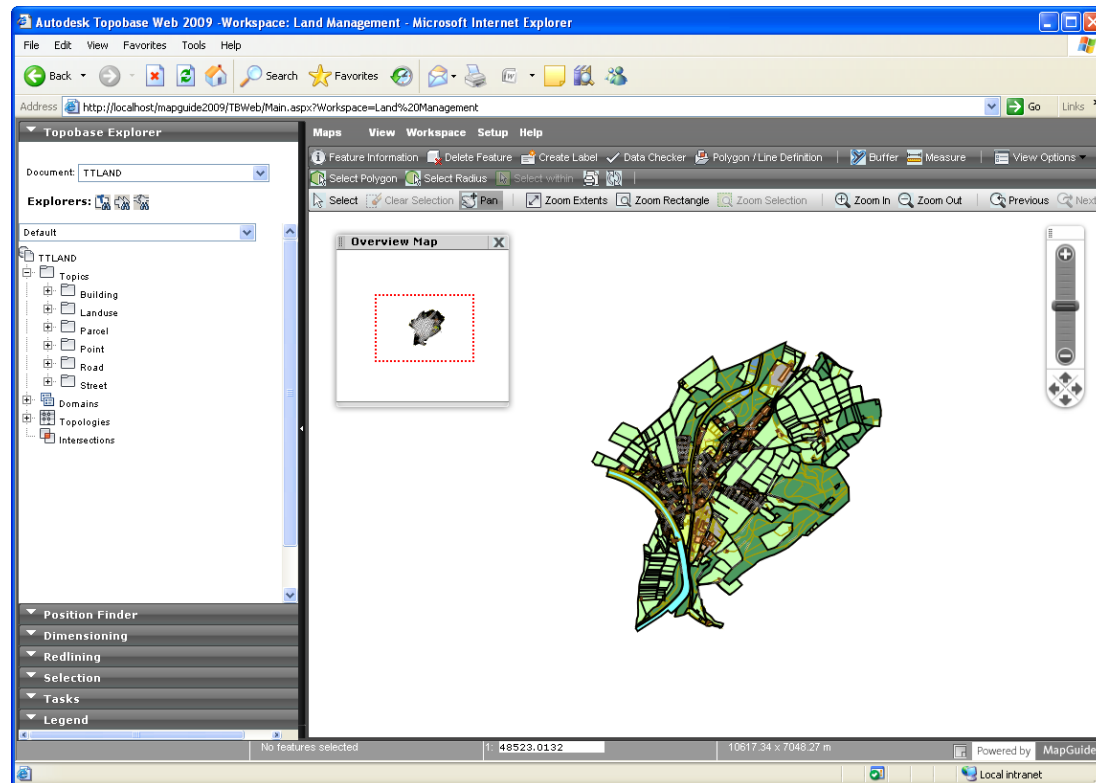

## 5.1.1 Launching TB2009

- Launch the Internet Explorer with the site <http://localhost/mapguide2009/TBWeb/login.aspx>.
